DETAILED ACTION

Allowable Subject Matter

1. Claims 4, 6, 7, 9 and 10 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art made of record and relied upon by the examiner in the prosecution of this Application, fails or even suggest "A transmitting/receiving apparatus comprising: a channel estimation section that performs channel estimation for a known symbol of a received signal; a storage section that stores a channel estimation value estimated at said channel estimation section; a determination section that determines a correlation between a known symbol of a received signal received earlier and stored in said storage section and a known symbol of a currently received signal and determines whether or not the correlation is a value enabling space division multiplexing communication with directivity control by a communicating party; a weight generating section that generates a transmitting weight from a result of the channel estimation; a multiplying section that multiplies a transmission signal by the transmitting weight generated at said weight generating section; a transmitting section that transmits the signal multiplied by the transmitting weight at said multiplying section; a timer section that measures a time said weight generating section takes to generate the transmitting weight; and a switching section that, when said determination section determines that space division multiplexing communication with directivity control is possible and when the time for generating the transmitting weight, which is measured by said timer section is less than a predetermined time, outputs the transmitting weight generated by said

weight generating section to said multiplying section, and, when said determination section determines that space division multiplexing communication with directivity control is not possible and when the time for generating the transmitting weight, which is measured by said timer section is equal to or greater than the predetermined time, outputs "1" as the said transmitting weight to said multiplying section ", recited in independent claims 4, 6, 9 and 10.

3. Dependent claim 7 depends on allowed claim 6, and for the mere dependence on the allowed claim, claim 7 is also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
